

COMMITMENT TO SUSTAINABILITY

At BSI and our in-house stone fabricator, Colorado Custom Stone, sustainability is at the core of our businesses. Through responsible sourcing, efficient production, and continuous improvement, waste is reduced and environmental impact is minimized.

WATER RECLAMATION SYSTEM

Closed-loop system captures, filters, and reuses water throughout production.

99.8%
WATER
PURITY

COMMITMENT TO SUSTAINABILITY

FSC® CERTIFIED

Wood materials are responsibly sourced and tracked from forest to consumer. FSC® Chain of Custody Certified (C108209).

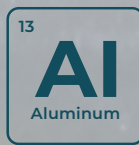

METAL SUPPLIERS

Our stainless steel and aluminum suppliers utilize significant amounts of scrap in their melting practices.

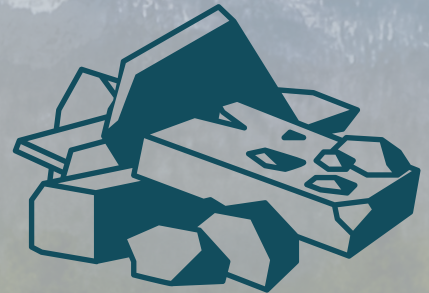

80–90%
recycled stainless steel

15–50%
recycled aluminum

STONE SCRAP RECYCLING

Stone scrap is repurposed for road construction by the Colorado Department of Transportation, diverting waste from landfills.

POWDER COATING

Lead-free powder coatings emit zero volatile organic compounds (VOCs) into the atmosphere.

Zero VOCs
emissions by powder coatings

REUSABLE SHIPPING MATERIALS

Cardboard prioritized over wood

Packaging materials reused or recycled

Blanket wrapping eliminates disposable packaging
